The stock of the Cleveland, Columbus & Cincinnati Railroad has reached \$115 per share in the New York Market. Soon after the road went into operation the stock reached as high as \$130 per share, and the advance within the last six months from \$94 to \$115 renders it not improbable that it may again reach those figures. The company is free from debt, and since its organization no less dividend than 10 per cent. per annum has been declared.

Among those reported killed at the battle of Pittsburgh Landing, was Maj. Bes. P. Rus-KIR, of the 13th regiment, a brother-in-law of

wounded in the late battle, raised something over one hundred dollars in cash. Contributions of needed articles, to a considerable extent, have also been made by citizens of the town and country.
